Margin Call and Stop-Out Policy

55. Blackridges Trading Platform allows Clients to open orders if the margin of their Trading Account is more than 100%.
56. In the event that the Client's account equity drops to 50% of the Margin Level required to maintain open the positions the Client will receive a Margin Call. This is a warning message that the equity in your Account is not enough to support your open positions. At this point, you will not be able to take any new position and you will have the option to deposit sufficient money in order to maintain your open positions. When you have losing positions, your Margin Level will go down and may become close to the Margin Call Level. When you have winning positions, your Margin Level will go up and the Margin Call Level may become more remote.
57. The "**Stop-out Level**" is the level of your equity where our Online Trading Facility will start automatically to close trading positions (starting from the least profitable position and until the Margin Level requirement is met) in order to prevent further account losses into the negative territory. For standard, micro and zero account holders the Stop-out Level is equal to 20% of the Margin Level required to maintain your open positions.
58. The Company has the right to close the Client's open positions without the Client's consent and/or without providing any prior notice where the Equity of the Trading Account is less than the pre-defined Stop-Out level.

59. Margin level is automatically monitored by Blackridge's systems. In the event that the Client's trading account reaches the Stop-Out level the system will automatically start closing the Client's positions following the priority of the queue.

64. Any indication or suspicion, in the Company’s sole discretion, of any form of arbitrage (including but not limited to risk free profiting), abuse (including but not limited to participant’s trading activity patterns that indicate that the participant solely aims to benefit financially without being genuinely interested in trading in the markets and/or taking market risk), internal hedging in coordination with other parties, abuse of our ‘no negative balance’ policy, fraud, manipulation, cash-back arbitrage or any other forms of deceitful or fraudulent activity, will constitute all Transactions carried and/or profits or losses garnered as invalid. In these circumstances, we reserve the right to close/suspend (either temporarily or permanently) all of the Client’s trading Accounts and cancel/or all Transactions.
